SUMMARY

Began my programming journey by finishing Hacktiv8 bootcamp, where I became a proficient full-stack web developer. This decision to transition from my previous career in Operations was driven by my lifelong dedication to technology. I thrive in fast paced environments where I can play an instrumental role in identifying, and optimizing any inefficiencies, and providing clear, actionable, realistic solutions to eliminate them.

EDUCATION

Hacktiv8

Full Stack JavaScript Immersive Program ([Transcript](#))

Jakarta, Indonesia

January 2024 – April 2024

Philippine School of Business Administration

Bachelor of Science in Business Administration

Jakarta, Indonesia

2018 – 2021

WORK EXPERIENCE

Aspire Financial Technologies

Product Operations Analyst

Jakarta, Indonesia

November 2021 - December 2023

- Developed two credit product features which brought in >200 clients with an estimated revenue of >USD 10,000.00. Analysed the end-to-end process including, creating user stories, and mapping the as-is state to future state. Collaborated with Product Designers to conduct A/B testing on the UI elements, and the in app target flow.
- Created automation and error-proofing tools to reduce manual data entry errors by 95%, and improve operational SLAs for bill and invoice generation by 90%. Created Bill Generation tool for credit clients, moving team manual work of 20 hrs / month to 4 hrs / month. Created Subscription Invoice Generation tool for on-time client invoice generation, enhancing promptness of the billing, and reducing delays in invoice from 3 days to 0 days. Created Late Fee and Penalty Calculator to reduce manual data entry errors by 95%, and reduce calculation time by 90%. Created Email Generation tool to improve the efficiency of sending email by 90%, and reducing errors of manually sending emails.
- Managed 2 FinTech partners and banks to ensure prompt release of funds to our Accounts. Managed 2 vendors involved in physical dispatch of cards to ensure the deliveries are on-schedule with no defects. Cold calling >100 clients to resolve issues when using a feature. Conducted user interviews for >20 users. Achieved customer/partner satisfaction score of >95% Y-o-Y. Achieved card deliveries and service satisfaction score of >80% Y-o-Y.

SKILLS

Language: JavaScript, TypeScript

Front End: HTML & CSS, Bootstrap, Tailwind, ReactJS, React Native, Redux, Next JS, Apollo Client

Back End: Node JS, Express, Sequelize, PostgreSQL, MongoDB, GraphQL, Apollo Server, Redis, Rest API

PROJECTS

[Tic-Tac-Toe Game](#)

March 2024

A web based real-time tic-tac-toe game

Tech stack: React Context, React, Express JS, PostgreSQL, firebase

[Restaurant Web App](#)
